B. Tech AIML (CSE), V Semester

PBL-3 Weekly Progress Report – Groupwise

Students Name (Groupwise)	Mihir Sanghvi Krishna Agarwal Mahika Tuteja	**Programme:**	**B. Tech AIML (CSE)**
Semester/ Section	**V**	**Reg Numbers: (Groupwise)**	2427010544 2427010030 2427010439
Student Mobile Number		**Course Code:**	**AIM3170**
Student Email –IDs:	mihir.2427010544@muj.manipal.edu krishna.2427010030@muj.manipal.edu mahika.2427010439@muj.manipal.edu	**Date and Week: (e.g. : I, II, III, etc)**	Week VI 22-10-2026

MANIPAL UNIVERSITY
JAIPUR

Name of Faculty Supervisor	Dr. Preeti Narooka
PBL-3 Project Title:	PACE: Project Allocation, Coordination and Evaluation Portal
Programming Language (Front End, Back End, etc)	**Front end:** TypeScript, React 19, Next.js 16 (App Router), Tailwind CSS v4, PDF.js **Back end:** Supabase (PostgreSQL with Row Level Security, SQL / PL/pgSQL functions, Auth, Storage), Next.js route handlers on Vercel for LinkedIn **Tools:** Git and GitHub, Vercel, Python (faculty directory scraper)
Project Status **(% of work Completed)**	85%
Weekly Project Progress-Summary	Achievements module: students file individual achievements with proof; the supervisor approves with up to 5 bonus marks, asks for more details or rejects; the administrator sees the Student Excellence Award shortlist. LinkedIn posting from one central portal account: an in-portal preview shows the post as it will appear, and the supervisor approves and posts in one click. The access token is stored encrypted (AES-256-GCM) on the server. Drag-and-drop upload boxes on every upload (PBL form, weekly report, announcement, achievement). PACE name and logo across the portal; demo accounts and sample data removed.
Individual Contribution of Student (Must fill- for every individual in the group by Supervisor).	Mihir Sanghvi: built the LinkedIn connect and post routes on Vercel, encrypted token storage, and the achievement review database functions. Krishna Agarwal: tested uploads (PDF and image types, size limits) and the LinkedIn preview on different screen sizes; reported and rechecked layout bugs. Mahika Tuteja: wrote the LinkedIn post templates for each achievement category, prepared achievement test data and checked the wording of the generated posts.
